

Voltsmile

DATASHEET

V10

Model	V10	V10+
-------	-----	------

Main Parameter

Battery Chemistry	LiFePO4	
Nominal Voltage	51.2V	
Operating Voltage	43.2~57.6V	
Capacity	5,120Wh	
Charging Current	100A	
Discharging Current	100A	
Communications	CAN / RS485	
Scalability	Max 63 units in parallel	
Dimensions	442×470×133mm	
Weight	42 kg	
Working Temp	0°C~55°C	-20°C~55°C
Store Temp	-20°C~55°C	
IP Rating	IP20	
Humidity	5%~95%(RH) No Condensation	
Altitude	Wall-Mounted, Floor-Mounted, Rack-Mounted	
Installation	<4500M	
Warranty	10 years	
Designed Life	10 years+	
Certifications	IEC62619 / UN38.3 / CE / ROHS	

Introduction

The Voltsmile V10 Lithium Iron Battery, the cutting-edge solution designed to meet your most demanding power needs. With a robust voltage of 51.2V and a substantial capacity of 5.12kWh, the Voltsmile V10 stands as a testament to advanced engineering and unparalleled performance. Idea for a wide range of applications, this battery pack is your go-to choice for reliability, efficiency, and sustainability.

Cable set
